SLABMATE®

It's a new, innovative high performing insulation panel

Slabmate® is the new under slab insulation solution for slab on ground construction. **Slabmate®** has been designed to create a thermal barrier adding to the total insulation of the project.

Environmentally friendly, **Slabmate®** is made here in Australia for both commercial and residential projects. **Slabmate®** is lightweight, safe and easy to install and will maintain its R value for the life of the building.

Slabmate® is the cost-effective solution to increasing your buildings energy efficiency.

FEATURES

Lightweight

Easy to install

Creates a thermal barrier to reduce heat loss from the slab

Australian made

Increase total insulation

No CFC's or ozone depleting properties

Delivers high R-Value rating

Will not breakdown overtime

Cost effective and fast to install under slab product

	SM- 30	SM-40	SM-50	SM-60	SM-70
Sheet Thickness (mm)	30	40	50	60	70
